BRONTO B-CW400 CAGE WINCH

Type of Platform	Standard	Extending
Width (stowed)	2.5m	2.5m
Width (extended)	n/a	3.9m
B-CW400 Winch Capacity	400kg	400kg
Platform Capacity	700kg	600kg

Winch weight	120kg	120kg
	plus	plus
Operator weight	100kg	100kg
	plus	plus
2 x Customer Personnel @ 100kg each	200kg	200kg
	=	=
Sub total	420kg	420kg

Residual Capacity = (Platform Capacity - Winch & Personnel)	700kg - 420kg	600kg - 420kg
	280kg	180kg

FOR 50M, 70M & 90M BRONTO LIFTS

- Residual Capacity is to include the weight of item(s) to be lifted including slings, chains, attachments and any other item(s).
- When operating with the winch fitted. The machine must operate at highest weight setting for the platform, which reduces the outreach profile.

2 MACHINES IN 1

- Material handling capacity up to 400 kg
- Hydraulically operated, independent from external power sources
- Extendable lifting jib
- +/- 45 degrees rotation
- Can remain mounted during transport
